Easy Code Models

DL3154 Easy code has all the operating features of tumbler models but has been designed to simplify code changing

By removing the unit from the door, the code can quickly and easily be changed by rotating the dials on the back of the unit with a screw driver

- Single user code of 4 to 10 digits
- Code changing does not require removal of tumblers or the back plate
- 8,000 code combination
- Dual handed suitable without alternation for left or right hand applications
- Holdback function allows unrestricted access
- Chinese Utility Patent: ZL03225726.0; UK Utility Patent: GB2401645

*** Exclusive U.K.**

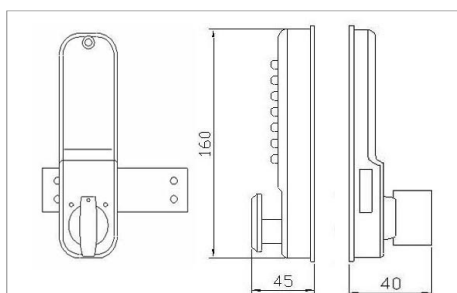

Finishes available

- PVD Brass, Satin Chrome
- Polished Brass Plated
- Chrome Plated, Nickel Plated
- Paint Finish in various color

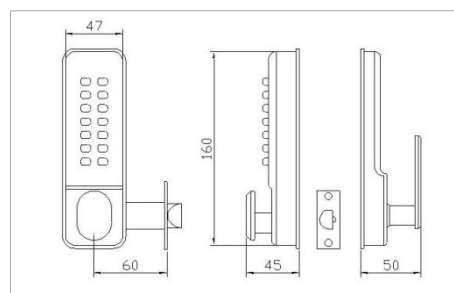

By turning the dials so the dot is facing the centre of the 'Easycode' unit, each individual digit becomes active and must be pressed in order to gain access. The process is quick and simple and avoids the necessity to remove pins or backplates.

• Other styles for order :

Surface Deadbolt – DL3259
